ICI picks Palmer's Multi-Family Division for Community Clubhouse

WINTER PARK, FLORIDA – (February 6, 2006) – The Multi-Family Division of Palmer Electric Company was selected by Intervest Construction, Inc. Orlando (ICI) to provide site and building electrical contracting for the clubhouse facilities at Trafalgar Villages in Poinciana, Florida. The project is 10,000 square foot composed of a single-story clubhouse with a full theater, retail store and recreation hall, and exterior elements including a covered lanai, heated swimming pool and a man-made lagoon beach. According to Palmer's senior vice president, David Beasley, the project will be completed in August 2006.
