Palmer Electric Completes Industrial Building in Plant City, Fla.

WINTER PARK, FLA., December 13, 2006 – The commercial division of Palmer Electric Co. has completed its contract for plans and specifications and electrical contracting for The Wieland-Daveco Corp., the general contractor overseeing construction of a new warehouse for plastic foam products maker, Dart Container. The new Plant City, Fla. facility, which encompasses 165,000-square-foot of industrial space, was completed in eight months. The Lansing, Mo. design team included architecture by Ledy Design Group, and electrical engineering by Clark Tombley, Randers Consulting Engineers, Inc.
