Palmer Electric Nears Completion on 1400 SouthPark

WINTER PARK, FLA. - June 19, 2007 – Palmer Electric Company's commercial division recently completed its \$870,000 contract with general contractor, Brasfield & Gorrie, LLC, for electrical contracting, low voltage and fire alarm systems for 1400 SouthPark, a three-story, 115,736-square-foot office building in Orlando, Fla.

Orlando-based, Flagler Development Company is the building's developer. The building was designed by HuntonBrady Architects of Orlando, Fla. CHPS Consulting Engineers of Maitland, Fla., provided electrical engineering.

Along with this same development, design and construction team, Palmer Electric Company has wired 1000 SouthPark, 1200 SouthPark and the Corinthian College, all located within the SouthPark commerce park in Orlando, Fla.
