Kolter Homes Chooses Palmer Electric to Wire Luxury Townhomes

WINTER PARK, Fla., October 10, 2007 – The multi-family division of Palmer Electric Company has been selected by Kolter Homes to provide electrical contracting for Grande Oaks at Heathrow, a new, luxury townhome community in Lake Mary, Fla. Palmer is providing the electrical work on the 51-building complex. Composed of three-story buildings, a recreation center and site amenities, the luxury gated community will have 314 townhomes with one- and two-story floor plans ranging from 2,280- to 2,447-square-feet. Completion is scheduled for the first quarter of 2009.

The Evans Group, an Orlando-based architectural practice, designed the project with S.G. M. Engineering, Inc., also of Orlando, handling the electrical engineering.
