Palmer Electric Completes Wiring of 1300 SouthPark

WINTER PARK, Fla., April 29, 2008 — Palmer Electric Company announced today its commercial division has completed electrical contracting for 1300 SouthPark in Orlando, Fla. Working with general contractor Brasfield & Gorrie, LLC, Palmer provided electrical wiring, site lighting, fire alarm systems and lightning protection for the four-story, 142,000-square-foot office building.

Flagler Development Company Land Holdings, LLC, based in Coral Gables, Fla., is the developer. HuntonBrady Architects of Orlando, Fla., designed the building. CHPA Consulting Engineers of Maitland, Fla., provided electrical engineering.

This is the fifth building Palmer Electric Company has completed in the SouthPark office/service center with this development, design and construction team.
