Palmer Electric to Wire 1300 SouthPark

WINTER PARK, Fla., January 7, 2008 – Palmer Electric Company's commercial division has secured a contract with general contractor, Brasfield & Gorrie, LLC, to provide electrical contracting, site lighting, fire alarm systems and lightning protection for 1300 SouthPark, a four-story, 140,000-square-foot office building in Orlando, Fla. The new Class "A" office space is scheduled for completion in May 2008.

Orlando-based Flagler Development Company Land Holdings, LLC is the developer. The building was designed by HuntonBrady Architects of Orlando, Fla. CHPS Consulting Engineers of Maitland, Fla., provided electrical engineering.

This is the fifth building in the SouthPark office complex that Palmer Electric Company has worked on with the development, design and construction team including: 1000 SouthPark, 1200 SouthPark, 1400 SouthPark and the Corinthian College.
