

Palmer Electric Co. lands design-build contract for new bank

WINTER PARK, Fla., July 24, 2008 — The special projects division of Palmer Electric Co. announced today it has secured a \$165,000 design-build contract to provide electrical contracting for a new M & I Bank branch in Oviedo, Fla. Under contract with McCree General Contractors & Architects, Palmer is providing wiring for site and building electrical along with the wiring and installation of the fire alarm and security systems for the one-story, 6,200-square-foot bank with three drive-throughs. August 2008 is the project's planned completion.

Peninsula Engineering Inc. of Orlando, Fla., provided engineering for electrical, security and fire alarm systems.
