

## **Palmer wraps up fast-track school project**

WINTER PARK, Fla., August 22, 2008 — The special projects division of Palmer Electric Co. announced today it completed phase 1 of a \$450,000 contract with McCree General Contractors & Architects for the renovation of Mill Creek Elementary School in Kissimmee, Fla. Palmer's scope of service included electrical upgrades for the chiller plant and HVAC systems along with new lighting for the single-story, 27,000-square-foot facility. The fast-track summer project commenced construction on July 5<sup>th</sup> and was completed on August 6<sup>th</sup>.

The project owner is the School District of Osceola County. Electrical engineering was provided by S.G.M. Engineers Inc., an Orlando, Fla.-based facilities consulting engineering firm.
