

Two Palmer Electric Co. employees named to leadership positions in Academy of Construction Technologies

WINTER PARK, Fla., February 24, 2009 – Palmer Electric Company is pleased to announce its vice president of commercial production, Robert K. Vaughn, has been elected treasurer of Academy of Construction Technologies (ACT), and commercial project manager, Dan DeMorse, has been elected to the association's board of directors as a member-at-large.

About Academy of Construction Technologies

ACT, founded in 1992, is a partnership of the Central Florida construction industry contractors and trade associations representing both union and non-union entities. ACT works closely with Orange, Osceola, and Seminole county school districts to promote construction as a career and provides students with the opportunity to develop lifelong skills.
