

Palmer Electric completes two office buildings in SouthPark

WINTER PARK, Fla., February 17, 2009 — Palmer Electric Company has completed contracts totaling just under \$1 million for the electrical work for two, new office buildings in SouthPark Center, a commerce park in Orlando, Fla. Under its contracts with general contractor Brasfield & Gorrie LLC, Palmer completed 800 SouthPark, a two-story, 70,533-square-foot building, and 900 SouthPark, a two-story, 18,900-square-foot building.

Both buildings were developed by Flagler Development Company Land Holdings LLC of Coral Gables, Fla. HuntonBrady Architects of Orlando, Fla., provided architectural design. CHPA Consulting Engineers of Maitland, Fla., provided electrical engineering.
