Palmer Electric Co. wins contract for assisted living facility

WINTER PARK, Fla., June 24, 2009 — The multi-family division of Palmer Electric Company has secured a contract for just over \$300,000 for electrical services and lighting for the 78-unit assisted living facility at LifePointe Village at Orlando, a senior living complex under development in Orlando, Fla. Under its contract with general contractor Allen & O'Hara Construction Co. LLC of Olive Branch, Miss., Palmer is providing site and building electrical contracting, and a fire alarm system for the three-story, 70,000-square-foot facility. Showcase Lighting & Home Décor Center, Palmer Electric's sister company, is providing lighting fixtures. The project is scheduled for completion in February 2010.

The assisted living facility is the first of three levels of senior housing planned for LifePointe Village at Orlando that includes future construction of independent living residences and patio homes.

The project's owner and developer is Orlando Central Community Inc. of Orlando, Fla. Dale Littlefield of Memphis, Tenn., is the project architect. Electrical engineering is being provided by Hall Engineering LLC of Jackson, Tenn.
