

Palmer Electric Completes Medical Office Building

WINTER PARK, Fla., January 13, 2011 — Palmer Electric Company has completed its \$175,000 contract for electrical contracting for the new Florida Hospital DeLand Victoria Medical Park. Under contract with general contractor Freese Construction Company Inc., Palmer Electric provided site and building wiring along with fire alarm systems for the one-story, 25,000-square-foot facility that comprises space for outpatient imaging, women's diagnostics, sports medicine and rehabilitation, a laboratory and physician offices.

Owned by Adventist Health Systems, the building was designed by Lillibridge Healthcare, Chicago, Ill. Electrical engineering was provided by the Fort Lauderdale, Fla., office of Meinhardt Consulting Engineering.
